2022-2023: Back in Classrooms

*Chemistry all Around
You reached over
25,000 students
in gymnasium
presentations*

*Successfully
restarted Scientists
& Engineers-in-the-
Classroom. Now
accepting requests for
2023-2024*

*Videos remain
available with 44
videos covering 29
grade 1-9 science
curriculum topics.*

*Developing Teacher
PD Workshops as
per the new K-3
curriculum for
September 2023*

*"The hands-on experience
was exceptional"*

*"Great presentation. The
kids were super engaged."*

*"Students were really
engaged and have
been referring to the
presentation ever since."*

We Make Learning Science Fun!

ASN volunteer scientists and engineers are now back in classrooms to help teachers with grade 1 to 9 science curriculum linked presentations.

We're gearing up for the introduction of the new curriculum for grades K-3 in September 2023 and will continue to support the existing units as needed. If you intend to begin transitioning other grades in the coming year, contact us as we already have volunteers looking to the future.

Teacher PD workshops will also be restarting in September. Check our website in the Fall or contact us for details.

And the short, on-line videos that we created over the past three years continue to be available at no cost to teachers wanting to enhance their classroom options. Contact us to register and we will send you the website link.

Visit our website for more information and to register.

Provincial Programs

SCIENTISTS & ENGINEERS-IN-THE-CLASSROOM

Alberta Science Network gets students excited about science. Our volunteers inspire students through hands on and minds on presentations. Requests are now being accepted for the 2023-2024 school year. Presentation fees of \$125 per classroom are not required until a booking with an ASN volunteer is confirmed and a date has been set.

CHEMISTRY ALL AROUND YOU

Typically delivered to multiple classrooms at a time in a gymnasium setting, this high impact program is available at all times in the Greater Edmonton area and in other communities throughout the province when booked in advance.

TEACHER WORKSHOPS

In person, hands-on teacher PD is back starting in the Fall. Watch for workshop information on our website in September.

ONGOING ONLINE PROGRAMMING

Having invested so much into videos and online teacher PD, both options will be kept open for enhancing in-person programs going forward. We'll also be reaching out again to rural Alberta schools and teachers for whom online alternatives are in many cases the only option.

Thank you Supporters!

Thanks to the many generous past and current donations of Corporations, Foundations, Associations and Individuals, ASN enters the new school year with a modest annual budget. We continue to apply for ongoing funding to keep program delivery fees as low as possible.
