Structures & Forces

Bring real-world design challenges into your classroom! Build confidence in the engineering process and develop your understanding of the forces that impact strength and stability. Lisa Roth, a learning strategist and enthusiastic science educator and Penny Shrive, a passionate engineer and experienced presenter will guide you through hands-on activities that are sure to get you (and your students) thinking like engineers.

Planet Earth

What can rocks, fossils and landforms tell us about Earth's fascinating history? Explore our remarkable planet through the eyes of passionate geoscientists. Debbie Rheinstein, a science learning leader at Queen Elizabeth High School AND professional geologist by training will be joined by Darcie Greggs of the Burgess Shale Geoscience Foundation to bring you a unique look at the wonders of our Planet Earth.
